Accessibility Narrative

To the best of our professional knowledge and belief, the Block 5 project will be designed to meet the applicable sections of the Massachusetts Architectural Access Board (MAAB) Rules and Regulations. In addition, the housing must be designed to meet the requirements of the Federal Housing Design Manual as published by the Fair Housing Act (FHA).

Features include accessible routes, housing amenities, sidewalks, parking including van spaces, access to retail, and Group I and Group 2A residential units.
