

**Addendum No. 1 to IFB 18-24**

**CITY OF SOMERVILLE, MASSACHUSETTS**  
**Department of Purchasing**  
**JOSEPH A. CURTATONE**  
**MAYOR**

To: All Parties on Record with the City of Somerville as Holding IFB 18-24, **Somerville Avenue Utilities and Streetscape Upgrades**

From: Michael Richards, Assistant Purchasing Director

Date: January 5, 2018

Re: Answer Questions Posed at Pre-Bid Meeting, Clarify Qualifications Requirements, Append List of Pre-Bid Attendees, Append List of Bid Holders

**Addendum No. 1 to IFB 18-24**

---

**Please acknowledge receipt of this Addendum by signing below and including this form in your proposal package. Failure to do so may subject the proposer to disqualification.**

This addendum includes the following:

- Answers questions posed at the optional pre-bid meeting held on January 3<sup>rd</sup>, 2018, as well as those received in writing prior to the meeting
- Provides revisions to the technical specifications
- Revises vendor qualifications requirements
- Attaches the list of pre-bid meeting attendees
- Attaches the list of all interested plan holders.

The full addendum with all information can be downloaded at

<https://drive.google.com/drive/folders/13OLxLlFFQylxvtrQloy6L60RnEYrmeff?usp=sharing>

**NAME OF COMPANY / INDIVIDUAL:** \_\_\_\_\_

**ADDRESS:** \_\_\_\_\_

**CITY/STATE/ZIP:** \_\_\_\_\_

**TELEPHONE/FAX/EMAIL:** \_\_\_\_\_

**SIGNATURE OF AUTHORIZED INDIVIDUAL:** \_\_\_\_\_

**ACKNOWLEDGEMENT OF ADDENDA:**

**Addendum #1** \_\_\_\_\_ **#2** \_\_\_\_\_ **#3** \_\_\_\_\_ **#4** \_\_\_\_\_

## **Addendum No. 1 to IFB 18-24**

### **VENDOR QUALIFICATIONS**

**All references to MassDOT Prequalification are to be struck.** Respondents are requested to submit a notarized Statement of Bidder's Qualifications with your bid package, included herein.

BIDDER SHALL PROVIDE CLEAR AND CONCISE RESPONSES TO ALL QUESTIONS IN THIS STATEMENT. BIDDER SHALL USE THIS FORM, OR A FORM WITH THE SAME FORMATTING AS THE CITY'S STATEMENT OF BIDDER QUALIFICATIONS.

### **TECHNICAL SPECIFICATION REVISIONS**

Due to the file sizes associated with the revised specs and drawings, please download the full Addendum #1 from the Google Drive here -

<https://drive.google.com/drive/folders/13OLxLFFQylxvtrQloy6L60RnEYrmeff?usp=sharing>

Revisions include:

- Many items clarifying/modifying the CIPP spec. per the questions
- Clarifications to Section 02200 Earthwork re: watertight trucks and disposal site
- Added a new Attachment K to the Tech Specs: Including all the record plans that we have for the pipes to receive CIPP lining. (Only the 66"/72"/84" CS is missing). These files are large, but a lot of detail when you enlarge on the computer screen.
- Issuing the Qualifications Form as part of Part 3, Section 3.1 (Forms to be submitted with Bid)
- One sketch to correct/clarify the sizes of the existing south side sidewalk sewer east of Prospect

### **QUESTIONS AND ANSWERS**

Most all questions received prior to and during the pre-bid meeting are answered herein. However, some questions received require additional time to answer and will be included with the Addendum #2 following the Q/A period due by noon on Wednesday January 10<sup>th</sup>.

**NOTARIZED STATEMENT OF BIDDER'S QUALIFICATIONS**

**THIS FORM MUST BE SUBMITTED WITH YOUR BID**

**THIS STATEMENT MUST BE NOTARIZED**

**BIDDER SHALL PROVIDE CLEAR AND CONCISE RESPONSES TO ALL QUESTIONS IN THIS STATEMENT. BIDDER SHALL USE THIS FORM, OR A FORM WITH THE SAME FORMATTING AS THE CITY'S STATEMENT OF BIDDER QUALIFICATIONS.**

The bidder must provide references including telephone number and contact names in response to the questions in this section. References will be used in determining the responsibility of the bidder. The City reserves the right to use itself as a reference.

1. The names, titles, residences of all persons and parties interested in this Proposal as principals are as follows:

Note: Give the first and last names in full. In the case of corporation, give names of officers and directors; in the case of a partnership, give names of all partners.

IMPORTANT: Be sure residences are listed below.

Name	Title	Home Address
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____
_____	_____	_____

2. When organized.

\_\_\_\_\_

3. If a corporation, where incorporated.

\_\_\_\_\_

4. Indicate the general nature of work normally performed by your company.

Bidder's Name: \_\_\_\_\_

---

---

---

---

5. Has your present organization ever failed to complete any work awarded to it? If so, state when, where, and why.

---

---

---

---

6. Has your present organization ever defaulted on a contract? If so, state when, where, and why.

---

---

---

---

7. Qualification Requirements – As a minimum, the Bidder must demonstrate that it is qualified to bid on this Contract by adequately providing responses to the following qualification requirements:

**7A Qualification Requirement for Large Utilities in Urban Setting:**

Within the last 10 years, the Contractor must have successfully completed at least 3 projects involving, as a minimum, the construction of water mains, sanitary sewers, large-sized (equivalent of 48 inches or greater) storm drains, and precast concrete structures (greater than 6-ft diameter or equivalent in other shapes), in streets and sidewalks within a crowded urban setting; including traffic and pedestrian management and utility relocation and coordination. The dollar value of one project must be at least 30 million dollars and at least 20 million dollars for the other two projects. Provide the following details.

Bidder's Name: \_\_\_\_\_

**Project #7A-1:**

Project Name: \_\_\_\_\_

Start date: \_\_\_\_\_ Completion date: \_\_\_\_\_

Name and address of Owner for whom the work was done: \_\_\_\_\_

\_\_\_\_\_

Name of Owner's Representative (for Reference): \_\_\_\_\_

Owner's Representative's Current Telephone #: \_\_\_\_\_

Current E-mail: \_\_\_\_\_

Dollar Value of Contract: \_\_\_\_\_

Location of urban setting impacted by project: \_\_\_\_\_

Description of work performed that demonstrates that the above requirements have been fulfilled:

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

**Project # 7A-2:**

Project Name: \_\_\_\_\_

Start date: \_\_\_\_\_ Completion date: \_\_\_\_\_

Name and address of Owner for whom the work was done:

\_\_\_\_\_

Name of Owner's Representative (for Reference): \_\_\_\_\_

Owner's Representative's Current Telephone #: \_\_\_\_\_

Current E-mail: \_\_\_\_\_

Dollar Value of Contract: \_\_\_\_\_

Location of urban setting impacted by project: \_\_\_\_\_

Description of work performed that demonstrates that the above requirements have been fulfilled:

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Bidder's Name: \_\_\_\_\_

**Project # 7A-3:**

Project Name: \_\_\_\_\_

Start date: \_\_\_\_\_ Completion date: \_\_\_\_\_

Name and address of Owner for whom the work was done:  
\_\_\_\_\_  
\_\_\_\_\_

Name of Owner's Representative (for Reference): \_\_\_\_\_

Owner's Representative's Current Telephone #: \_\_\_\_\_

Current E-mail: \_\_\_\_\_

Dollar Value of Contract: \_\_\_\_\_

Location of urban setting impacted by project: \_\_\_\_\_

Description of work performed that demonstrates that the above requirements have been fulfilled:

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

**7B Qualification Requirement for water mains in Urban Setting:**

Within the last 10 years, the Contractor must have successfully completed at least 3 projects involving, as a minimum, the construction of water mains at least 12-inches in size within a crowded urban setting; including traffic and pedestrian management and utility relocation and coordination. The Contractor shall show experience with deactivating, removing, constructing, pressure testing, flushing and cleaning, disinfecting and commissioning water mains. The dollar value of one project must be at least 5 million dollars and at least 2 million dollars for the other two projects. Provide the following details.

**Project #7B-1:**

Project Name: \_\_\_\_\_

Start date: \_\_\_\_\_ Completion date: \_\_\_\_\_

Name and address of Owner for whom the work was done: \_\_\_\_\_

\_\_\_\_\_  
\_\_\_\_\_

Name of Owner's Representative (for Reference): \_\_\_\_\_

Owner's Representative's Current Telephone #: \_\_\_\_\_

**7-F Qualification Requirement for Pipeline Renewal:**

Within the last 10 years, the Contractor must have successfully completed at least 3 projects in the United States of 15-inch diameter or greater sewer and/or drain renewal using cured-in-place pipelining of at least 1,000 continuous linear feet with factory or on-site wet out of the liner tube; and design of a 15-inch diameter or greater liner tube wall thickness based on a fully deteriorated condition. At least one project shall have involved combined sewer pipes of 48-in. or greater and at least 500 continuous linear feet. At least one project shall have been within a crowded urban setting; including traffic and pedestrian management. At least one project shall have involved bypass pumping for flow rates of 1.5 MGD or greater.

**Project #7F-1:**

- END OF STATEMENT OF BIDDER'S QUALIFICATIONS -

Bidder's Name: \_\_\_\_\_

**City of Somerville**  
**Somerville Avenue Utility and Streetscape Improvements Project**  
**IFB# 18-24**

**Questions & Answers No. 1**  
**January 5, 2018**

- Q1: When will the CIPP lining work be completed? What year?
- A1: The Contract Documents do not specify a completion date for the CIPP lining work. However, the timing of the work shall be constrained by the Constraint in Section 01015, paragraph 1.04 L.1.
- Q2: What is the warranty period for CIPP work?
- A2: The warranty period for the Work of this Project is specified in the General Conditions, including paragraphs 10.2.2, 15.2, and 15.3.
- Q3: Ref. Sheet SD-90. Is CIPP Segment 4S 10 inches or 12 inches?
- A3: Please refer to Sheet SD-90, as modified by Addendum No. 1, Item 19.  
Between Allen and Linden Street, the pipe is 12 inches.  
Between Linden and Merriam Street, the pipe is 10 inches.  
East of Merriam Street, the pipe is 8 inches.
- Q4: Ref. Sheet SD-90. The odd shaped pipe- What shape is it? Oval? Arch? Egg? Are cross sections available for these pipes, these will be crucial to the design thickness of the CIPP liner?
- A4: Available record plans are issued in Addendum No. 1, Item 18. The Contractor will determine the exact shape of the pipe by the pre-lining video inspection as specified in Section 02640, paragraph
- Q5: How will the number of services to be reinstated on the CIPP lines be determined?
- A5: Please refer to Section 02640, paragraphs 3.02 C.1. and 2., including Addendum No. 1, Item 15.
- Q6: Are pipe inspection reports available for the pipes to be CIPP lined?
- A6: No. Information from the Subsurface Utility Exploration work is included in Attachment F of the Technical Specifications.

- Q7: Can the owner provide manhole depths for accurate CIPP design calculations? If not, please provide an assumed depth so all bidders are proposing the same material?
- A7: Please note that the rims, inverts and pipes sizes are indicated on Sheets G-21 through G-26. Manhole depths can be calculated from this information.
- Q8: Some CIPP installations will require fiberglass reinforced liner, and/or on-site wet out due to the size and weight of the liner, is this acceptable?
- A8: No. Refer to Section 02640, paragraph 1.10 C.
- Q9: Will the owner allow the addition of manholes to some pipe sections in order to shorten the CIPP liner lengths?
- A9: Yes. Please refer to Addendum No. 1, Items 8, 9, 12, and 13.
- Q10: Reference Section 02640, paragraph 1.10 A.2.: The specification states that CIPP installation cannot occur under 10° F. The ambient temperature has little effect on CIPP operations, can this be left to the discretion of the contractor?
- A10: Yes. Please refer to Addendum No. 1, Item 2.
- Q11: Please confirm steam inversion is allowed for CIPP and that hold pressures can be used for leakage testing during the cure.
- A11: Please refer to Addendum No. 1, Item 14 and Item 16.
- Q12: Reference Section 02640, paragraph 2.01 Materials states that “CIPP liner shall not be stitched...Electronic bonding of seams shall be used.” ASTM F1216 allows seam stitching as long as certain parameters are met. Please confirm that seams can be stitched as long as they comply with ASTM F1216. Electronic bonding is a specific system used proprietarily and may exclude many bidders from pricing the work.
- A12: Please refer to Addendum No. 1, Item 11.
- Q13: Please kindly clarify the prequalification requirement. Please clarify if a contractor will be considered as a qualified Bidder on this project if they have successfully completed multiple contracts similar in scope and complexity as this Project.
- A14: Please refer to Addendum No. 1, Item 1.
- Q14: Will the City consider providing a prequalification package to all bidders on the plan holders list to fill out and submit to the City prior to the bid opening date?

- A14: No. Each Bidder will submit the qualifications form issued in Addendum No. 1, Item 1.
- Q15: We would like to submit our soil cell as an alternate for the above project. Will this be acceptable?
- A15: No.
- Q16: Can soldiers piles be driven with a vibro hammer?
- A16: Yes. Please refer to Addendum No. 1, Item 4.
- Q17: Section 02200, paragraph 3.10 Handling Excess Materials, subparagraph C. states “For materials classified as non-contaminated: dispose of at a lined landfill in accordance with all local, state, and federal regulations.”. Excess material can be classified as common fill, controlled site, unlined landfill, etc. What is the intent?
- A17: Please refer to Addendum No. 1, Items 6 and 7. Also refer to Section 02190, paragraph 3.05 for the decision tree governing the disposal of excess soil.
- Q18: Is blasting of rock of rock allowed?
- A18: No. Please refer to Section 02200, paragraph 3.01 E.
- Q19: Why is the Project building the box culvert from upstream to downstream?
- A19: The Project will build an empty box culvert while maintaining existing flow in the existing brick combined sewer in the middle of Somerville Avenue. The “Upstream Connection” work that involves reconstruction existing pipes is constrained in Section 01015 to occur after the box culvert construction is started. As indicated on the Drawings, bulkheads are installed in the “Upstream Connection” to divert flow to the existing combined sewer.
- Q20: Reference Section 01514, paragraph 1.04 C.2. and Table 01514-1: The requirement to install the pumps to handle the 1-year, 24-hour storm is unpractical, especially at the lower reaches of the 72-in. and 84-in. combined sewer. For CIPP work, one simply schedules it for a time period when rain is not predicted for at least 2 days. Can this be modified?
- A20: Yes. Please refer to Addendum No. 1, Item 3.
- Q21: Regarding traffic management – where are you going to put the trucks while excavating?
- A21: Please refer to Sheet SD-7.  
- East of Prospect Street (Stages 1F through 2I), a truck lane is provided between the SOE and the barrier.  
- West of Prospect Street (Stages 1B through 1D), this lane is not provided. However, a Traffic

Management Plan to divert westbound traffic on Somerville Avenue via Prospect and Webster may be submitted by the Contractor for approval by the Engineer.

Q22: Reference the CIPP work in the brick sewers. Do you have any details on the manholes in order to determine how much of the riser must be removed to insert the liner?

A22: These details are not available. For bidding purposes, assume the riser will need to be removed down to the crown of the brick sewer.

Q23: Reference Section 02200, paragraph 3.10 D.1.: Can you clarify why it says we have to transport all materials in watertight trucks?

A23: For non-contaminated materials, Section 02200, paragraph 3.10 D.1. is modified by Addendum No. 1, Item 7. For contaminated material, refer to Section 02190, paragraph 3.08 B.

Q24: Reference Section 01520, paragraph 1.01 B.1. We are finding it difficult to find a 1500 sq. ft. office and trailer within 1,500 feet of the project location.

A24: Note that the Engineer's office does not require a trailer. Paragraph 1.01 B.1 calls for a retail or office space "if available."

Q25: Reference Section 01520, paragraph 2.01 A.5. Can the City issue 8 parking passes to accommodate for the parking spots?

A25: No. But the City will consider relaxing the requirement that the parking is 500 feet from the office, provided the office is within 1,500 feet of the Project Area.

Q26: Will you consider extending the bid submission deadline?

A26: We will take this under advisement.

Q27: Please clarify the need for the temporary water mains?

A27: Reference Sheet W-0. Most segments can be constructed off-line and tied in while maintain service via the existing main. Segments 1 and 5 (Prospect to Merriam) require temporary water mains.

Q28: Do the mains have to be constructed in segments?

A28: No. The term 'segment' is used as a naming convention and is not intended as a direction on when or how it is to be completed. The order of construction is up to the Contractor to schedule, subject to the constraints in Section 01015 and on Sheet W-0.

- Q29: Regarding the constraint to construct the box culvert within the Prospect Street intersection during the summer, it may work out that the box culvert cannot be built in a continuous fashion and a closure piece may be needed.
- A29: We did not detail a closure piece. However, there are two options. Junction Chambers 1 and 2 can be used as closure pieces. Alternatively, a cast-in-place closure piece with reinforcing similar to the precast box culvert sections, could be proposed in an RFI.
