**DESCRIPTION:**

Proposal is to build two small rear additions, demolish an interior staircase and add two more on-site parking spots. The project will have three two bedroom units.

**FINDINGS FOR SPECIAL PERMIT (SZO §4.4.1):**

In order to grant a special permit, the SPGA must make certain findings and determinations as outlined in §5.1.4 of the SZO. This section of the report goes through §5.1.4 in detail.

1. **Information Supplied:**

The Board finds that the information provided by the Applicant conforms to the requirements of §5.1.2 of the SZO and allows for a comprehensive analysis of the project with respect to the required Special Permits.

2. **Compliance with Standards:** *The Applicant must comply "with such criteria or standards as may be set forth in this Ordinance which refer to the granting of the requested special permit."*

Section 4.4.1 states that "[l]awfully existing nonconforming structures other than one- and two-family dwellings may be enlarged, extended, renovated or altered only by special permit authorized by the SPGA in accordance with the procedures of Article 5. The SPGA must find that such extension, enlargement, renovation or alteration is not substantially more detrimental to the neighborhood than the existing nonconforming building. In making the finding that the enlargement, extension, renovation or alteration will not be substantially more detrimental, the SPGA may consider, without limitation, impacts upon the following: traffic volumes, traffic congestion, adequacy of municipal water supply and sewer capacity, noise, odor, scale, on-street parking, shading, visual effects and neighborhood character."

In considering a special permit under §4.4 or 4.5 of the SZO, the Board finds that the proposed alterations would not be substantially more detrimental to the neighborhood than the existing structure. The proposed design and bulk are in line and harmonious with surrounding structures the proposal will create a better use of space within the building.

3. **Consistency with Purposes:** *The Applicant has to ensure that the project "is consistent with (1) the general purposes of this Ordinance as set forth in Article 1, and (2) the purposes, provisions, and specific objectives applicable to the requested special permit which may be set forth elsewhere in this Ordinance, such as, but not limited to, those purposes at the beginning of the various Articles."*

The proposal is consistent with the general purposes of the Ordinance as set forth under §1.2, which includes, but is not limited to The purposes of the Ordinance are to promote the health, safety, and welfare of the inhabitants of the City of Somerville; to provide for and maintain the uniquely integrated structure of uses in the City; to lessen congestion in the streets; to protect health; to secure safety from fire, panic and other dangers; to provide adequate light and air; to prevent the overcrowding of land; to avoid undue concentration of population; to facilitate the adequate provision of transportation, water, sewerage, schools, parks and other public requirements; to conserve the value of land and buildings; to preserve the historical and architectural resources of the City; to adequately protect the natural environment; to encourage the most appropriate use of land throughout the City; to protect and promote a housing stock that can accommodate the diverse household sizes and life stages of Somerville residents at all income levels, paying particular attention to providing housing affordable to individuals and families with low and moderate incomes; and to preserve and increase the amenities of the municipality.

The proposal is consistent with the purpose of the district, which is, "To establish and preserve quiet neighborhoods of one- and two-family homes, free from other uses except those which are both compatible with and convenient to the residents of such districts.

4. Site and Area Compatibility: *The Applicant has to ensure that the project "(i)s designed in a manner that is compatible with the characteristics of the built and unbuilt surrounding area, including land uses."*

*Surrounding Neighborhood: The proposed design fits with the general character of the surrounding neighborhood.*

5. Adverse environmental impacts: *The proposed use, structure or activity will not constitute an adverse impact on the surrounding area resulting from: 1) excessive noise, level of illumination, glare, dust, smoke, or vibration which are higher than levels now experienced from uses permitted in the surrounding area; 2) emission of noxious or hazardous materials or substances; 3) pollution of water ways or ground water; or 4) transmission of signals that interfere with radio or television reception.*

**None**

6. Vehicular and pedestrian circulation: *The circulation patterns for motor vehicles and pedestrians which would result from the use or structure will not result in conditions that create traffic congestion or the potential for traffic accidents on the site or in the surrounding area.*

**None**

6. Fast food establishments: *In special permit applications for fast-order, take-out or automobile oriented food service establishments, there shall be establishment of a need for such a facility in the neighborhood or in the City, and impacts on traffic circulation, parking and visual, physical, or historical characteristics of the particular location shall not be detrimental.*

7. Housing Impact: *Will not create adverse impacts on the stock of existing affordable housing.*

**None**

8. SomerVision Plan: *Complies with the applicable goals, policies and actions of the SomerVision plan, including the following, as appropriate: Preserve and enhance the character of Somerville's neighborhoods, transform key opportunity areas, preserve and expand an integrated, balanced mix of safe, affordable and environmentally sound rental and homeownership units for households of all sizes and types from diverse social and economic groups; and, make Somerville a regional employment center with a mix of diverse and high-quality jobs. The areas in the SomerVision map that are designated as enhance and transform should most significantly contribute towards the SomerVision goals that are outlined in the table below. The areas marked as conserve are not expected to greatly increase the figures in the table since these areas are not intended for large scale change.*

Project has no appreciable impact on SomerVision

9. Impact on Affordable Housing: *In conjunction with its decision to grant or deny a special permit for a structure of four or more units of housing, the SPGA shall make a finding and determination as to how implementation of the project would increase, decrease, or leave unchanged the number of units of rental and homeownership housing that are affordable to households with low or moderate incomes, as defined by HUD, for different sized households and units.*

Project has no impact.

**DECISION:**

Present and sitting were Members Orsola Susan Fontano, Richard Rossetti, Danielle Evans, Elaine Severino and Josh Safdie with Anne Brockelman and Pooja Phaltankar absent. Upon making the above findings, Richard Rossetti made a motion to approve the request for a Special Permit. Elaine Severino seconded the motion.
