Case number ZBA 2019-90 was opened before the Zoning Board of Appeals in the 3rd floor Community Room of the Visiting Nurse Association at 259 Lowell Street. Notice of the Public Hearing was given to persons affected and was published and posted, all as required by M.G.L. c. 40A, sec. 11 and the Somerville Zoning Ordinance. On September 4, 2019, the Zoning Board of Appeals took a vote.

## **I. PROJECT DESCRIPTION**

The proposal is to construct two shed dormers on either side of the roof.

## **II. FINDINGS FOR SPECIAL PERMIT (SZO §4.4.1):**

In order to grant a special permit, the SPGA must make certain findings and determinations as outlined in §5.1.4 of the SZO. This section of the report goes through §5.1.4 in detail.

### 1. Information Supplied:

The Board finds that the information provided by the Applicant conforms to the requirements of §5.1.2 of the SZO and allows for a comprehensive analysis of the project with respect to the required Special Permits.

### 2. Compliance with Standards: *The Applicant must comply "with such criteria or standards as may be set forth in this Ordinance which refer to the granting of the requested special permit."*

The structure is currently nonconforming with respect to the following dimensional requirements: lot area, front yard setback, left side yard setback, rear yard setback, and frontage.

The proposal will impact the nonconforming dimension of the left side yard setback. The current dimension is three feet, and the proposal will construct a dormer at that same distance. The requirement in the district is eight feet for a 2.5 story structure in the RB district. This alteration to a nonconforming structure requires the Applicant to obtain special permits under §4.4.1 of the Somerville Zoning Ordinance (SZO).

Section 4.4.1 states that "[l]awfully existing one-and two-family dwellings which are only used as residences, which are nonconforming with respect to dimensional requirements, may be enlarged, extended, renovated or altered by special permit granted by the SPGA in accordance with the procedures of Article 5."

In considering a special permit under §4.4 of the SZO, the Board finds that the alterations proposed would not be substantially more detrimental to the neighborhood than the existing structure. The proposal has been designed with setbacks that minimally impact the neighbors and the requirements for floor area ratio (FAR), lot area per dwelling unit, ground coverage, landscaped area, pervious area, and height will continue to be conforming to the requirements of the SZO.

### 3. Consistency with Purposes: *The Applicant has to ensure that the project "is consistent with (1) the general purposes of this Ordinance as set forth in Article 1, and (2) the purposes, provisions, and specific objectives applicable to the requested special permit which may be set forth elsewhere in this Ordinance, such as, but not limited to, those purposes at the beginning of the various Articles."*

The proposal is consistent with the general purposes of the Ordinance as set forth under §1.2, which includes, but is not limited to promote the health, safety, and welfare of the inhabitants of the City of Somerville; to protect health; to secure safety from fire, panic and other dangers; to provide adequate light and air; to prevent the overcrowding of land; to conserve the value of land and buildings; to encourage the

most appropriate use of land throughout the City; and to preserve and increase the amenities of the municipality.

The proposal is consistent with the purpose of the RB district, which is, “to establish and preserve medium density neighborhoods of one-, two- and three-family homes, free from other uses except those which are both compatible with and convenient to the residents of such districts.”

4. Site and Area Compatibility: *The Applicant has to ensure that the project "(i)s designed in a manner that is compatible with the characteristics of the built and unbuilt surrounding area, including land uses."*

*Surrounding Neighborhood*: The subject property is located on the eastern side of Cedar Street on the block between Summer Street and Elm Street. The structure is adjacent to a private way, Cedar Street Place.

*Impacts of Proposal (Design and Compatibility)*: The size, slope, materials, and location of the proposed dormers are compatible with the existing structure and the surrounding neighborhood.

5. Housing Impact: Will not create adverse impacts on the stock of existing affordable housing.

6. SomerVision Plan: Complies with the applicable goals, policies and actions of the SomerVision plan, including the following, as appropriate: Preserve and enhance the character of Somerville’s neighborhoods.
