Case # ZBA 2019-04 was opened before the Zoning Board of Appeals in the Council Chambers at Somerville City Hall. Notice of the Public Hearing was given to persons affected and was published and POSTED; all as required by M.G.L. c. 40A, sec. 11 and the Somerville Zoning Ordinance. On March 6, 2019 the Zoning Board of Appeals took a vote.

## **I. PROJECT DESCRIPTION**

The proposal is to construct a 2<sup>nd</sup> story rear deck and egress stairs for private use of the 2<sup>nd</sup> and 3<sup>rd</sup> floor tenants.

## **II. FINDINGS FOR SPECIAL PERMIT (§4.4.1)**

In order to grant a special permit, the SPGA must make certain findings and determinations as outlined in §5.1.4 of the SZO. This section of the report goes through §5.1.4 in detail.

### 1. Information Supplied:

The Board finds that the information provided by the Applicant conforms to the requirements of §5.1.2 of the SZO and allows for a comprehensive analysis of the project with respect to the required Special Permits.

### 2. Compliance with Standards: *The Applicant must comply "with such criteria or standards as may be set forth in this Ordinance which refer to the granting of the requested special permit."*

The structure is currently nonconforming with respect to the following dimensional requirements: lot area, lot area per dwelling unit, front yard setback, left side yard setback, and street frontage.

The proposal is to construct a second story deck to be slightly indented from the existing nonconforming left edge of the structure. Currently, the structure is one foot from the left property line and the proposed deck will be approximately 1.33 feet from the left property line. The proposal will be less nonconforming than the existing structure. This alteration to a nonconforming structure requires the Applicant to obtain special permits under §4.4.1 of the Somerville Zoning Ordinance (SZO).

Section 4.4.1 states that "[l]awfully existing one-and two-family dwellings which are only used as residences, which are nonconforming with respect to dimensional requirements, may be enlarged, extended, renovated or altered by special permit granted by the SPGA in accordance with the procedures of Article 5."

In considering a special permit under §4.4 or 4.5 of the SZO, the Board finds that the alterations proposed would not be substantially more detrimental to the neighborhood than the existing structure. The proposal will significantly enhance the tenants' ability to use a second means of egress by creating a code compliant staircase. The proposal has been designed with setbacks that minimally impact the neighbors and the requirements for number of dwelling units, ground coverage, landscaped area, pervious area, floor area ratio (FAR), building height, rear yard setback, and right side yard setback will continue to be conforming to the requirements of the SZO.

### 3. Consistency with Purposes: *The Applicant has to ensure that the project "is consistent with (1) the general purposes of this Ordinance as set forth in Article 1, and (2) the purposes, provisions, and specific objectives applicable to the requested special permit which may be set forth elsewhere in this Ordinance, such as, but not limited to, those purposes at the beginning of the various Articles."*

The proposal is consistent with the general purposes of the Ordinance as set forth under §1.2, which includes, but is not limited to promote the health, safety, and welfare of the inhabitants of the City of

Somerville; to protect health; to secure safety from fire, panic and other dangers; to provide adequate light and air; to encourage the most appropriate use of land throughout the City; and to preserve and increase the amenities of the municipality.

The proposal is consistent with the purpose of the RB district, which is, “ to establish and preserve medium density neighborhoods of one-, two- and three-family homes, free from other uses except those which are both compatible with and convenient to the residents of such districts.”

4. Site and Area Compatibility: *The Applicant has to ensure that the project "(i)s designed in a manner that is compatible with the characteristics of the built and unbuilt surrounding area, including land uses."*

*Surrounding Neighborhood*: There are primarily single- and two-family homes in the immediate area.

*Impacts of Proposal (Design and Compatibility)*: The proposed deck will not be visible from the street and will not have an impact on the design of the structure.

5. Housing Impact: Will not create adverse impacts on the stock of existing affordable housing.

6. SomerVision Plan: Complies with the applicable goals, policies and actions of the SomerVision plan, including the following, as appropriate: Preserve and enhance the character of Somerville’s neighborhoods.

**III.DECISION:**
