I. PROJECT DESCRIPTION

The proposal is to construct balconies within the required right side yard setback.

II. FINDINGS FOR SPECIAL PERMIT (SZO §4.4.1):

In order to grant a special permit, the SPGA must make certain findings and determinations as outlined in §5.1.4 of the SZO. This section of the report goes through §5.1.4 in detail.

1. **Information Supplied:**

The Board finds that the information provided by the Applicant conforms to the requirements of §5.1.2 of the SZO and allows for a comprehensive analysis of the project with respect to the required Special Permits.

2. **Compliance with Standards:** *The Applicant must comply "with such criteria or standards as may be set forth in this Ordinance which refer to the granting of the requested special permit."*

The structure is currently nonconforming with respect to the following dimensional requirements: lot area, left side yard setback, and right side yard setback.

The proposal will impact the nonconforming dimension of the right side yard setback. The current dimension is 3.8 feet and the proposal to install balconies will keep that same distance. The requirement in the district is 10 feet for a three-story structure. This alteration to a nonconforming structure requires the Applicant to obtain special permits under §4.4.1 of the Somerville Zoning Ordinance (SZO).

Section 4.4.1 states that “[l]awfully existing nonconforming structures other than one- and two-family dwellings may be enlarged, extended, renovated or altered only by special permit authorized by the SPGA in accordance with the procedures of Article 5. The SPGA must find that such extension, enlargement, renovation or alteration is not substantially more detrimental to the neighborhood than the existing nonconforming building. In making the finding that the enlargement, extension, renovation or alteration will not be substantially more detrimental, the SPGA may consider, without limitation, impacts upon the following: traffic volumes, traffic congestion, adequacy of municipal water supply and sewer capacity, noise, odor, scale, on-street parking, shading, visual effects and neighborhood character.”

In considering a special permit under §4.4 of the SZO, the Board finds that the alterations proposed would not be substantially more detrimental to the neighborhood than the existing structure. The proposal has been designed with setbacks that minimally impact the neighbors and the requirements for number of dwelling units, lot area per dwelling unit, ground coverage, landscaped area, pervious area, floor area ratio, building height, front yard setback, rear yard setback, street frontage, and parking will continue to be conforming to the requirements of the SZO.

3. **Consistency with Purposes:** *The Applicant has to ensure that the project "is consistent with (1) the general purposes of this Ordinance as set forth in Article 1, and (2) the purposes, provisions, and specific objectives applicable to the requested special permit which may be set forth elsewhere in this Ordinance, such as, but not limited to, those purposes at the beginning of the various Articles."*

The proposal is consistent with the general purposes of the Ordinance as set forth under §1.2, which includes, but is not limited to promote the health, safety, and welfare of the inhabitants of the City of Somerville; to protect health; to secure safety from fire, panic and other dangers; to provide adequate light and air; to conserve the value of land and buildings; to encourage the most appropriate use of land throughout the City; and to preserve and increase the amenities of the municipality.

The proposal is consistent with the purpose of the RC district, which is, “to establish and preserve a district for multi-family residential and other compatible uses which are of particular use and convenience to the residents of the district.”

4. Site and Area Compatibility: *The Applicant has to ensure that the project "(i)s designed in a manner that is compatible with the characteristics of the built and unbuilt surrounding area, including land uses."*

Surrounding Neighborhood: The subject property is located on the west side of Kensington Avenue, which runs parallel to McGrath Highway and is located just to the south of the Stop and Shop supermarket.

Impacts of Proposal (Design and Compatibility): The proposed balcony is consistent with the residential character of Kensington Avenue.

5. Housing Impact: Will not create adverse impacts on the stock of existing affordable housing.

6. SomerVision Plan: Complies with the applicable goals, policies and actions of the SomerVision plan, including the following, as appropriate: Preserve and enhance the character of Somerville’s neighborhoods.
