<u>Zoning District/Ward:</u>	RC Zone. Ward 2.
<u>Zoning Approval Sought:</u>	SZO §4.4.1
<u>Date of Application:</u>	March 21, 2019

<u>Date of Decision:</u>	April 3, 2019
<u>Vote:</u>	5-0

Case # ZBA 2019-21 was opened before the Zoning Board of Appeals at the Visiting Nurse Association 3rd Floor Community Room, 259 Lowell Street, Somerville MA on April 3, 2019. Notice of the Public Hearing was given to persons affected and was published and posted, all as required by M.G.L. c. 40A, sec. 11 and the Somerville Zoning Ordinance. On April 3, 2019 the Zoning Board of Appeals took a vote.

I. DESCRIPTION:

The proposal is to construct a deck within the required right side yard setback. The Applicants/Owners will also convert the two-family dwelling into a single family dwelling and make as-of-right alterations to the front entry porch.

II. FINDINGS FOR SPECIAL PERMIT (SZO §4.4.1):

In order to grant a special permit, the SPGA must make certain findings and determinations as outlined in §5.1.4 of the SZO. This section of the report goes through §5.1.4 in detail.

1. Information Supplied:

The Board finds that the information provided by the Applicant conforms to the requirements of §5.1.2 of the SZO and allows for a comprehensive analysis of the project with respect to the required Special Permits.

2. Compliance with Standards: *The Applicant must comply "with such criteria or standards as may be set forth in this Ordinance which refer to the granting of the requested special permit."*

The structure is currently nonconforming with respect to the following dimensional requirements: lot area, front yard setback, right side yard setback, and frontage.

The proposal will impact the nonconforming dimension of the right side yard setback. The current dimension is 0 feet as the property is on the lot line and the proposed deck stairs will be 3’-3” from the right property line. This alteration to a nonconforming structure requires the Applicant to obtain special permits under §4.4.1 of the Somerville Zoning Ordinance (SZO).

Section 4.4.1 states that “[l]awfully existing one-and two-family dwellings which are only used as residences, which are nonconforming with respect to dimensional requirements, may be enlarged, extended, renovated or altered by special permit granted by the SPGA in accordance with the procedures of Article 5.”

In considering a special permit under §4.4 of the SZO, the Board finds that the alterations proposed would not be substantially more detrimental to the neighborhood than the existing structure. The proposed rear stairs allow for the construction of a second story to the deck that is part of an overhaul of the property that will result in a single family home. The proposal has been designed with setbacks that minimally impact the neighbors and the requirements for lot area per dwelling unit, ground coverage, landscaped area, pervious area, floor area ratio (FAR), building height, rear yard setback, and left side yard setback will continue to be conforming to the requirements of the SZO.

3. Consistency with Purposes: *The Applicant has to ensure that the project "is consistent with (1) the general purposes of this Ordinance as set forth in Article 1, and (2) the purposes, provisions, and specific objectives applicable to the requested special permit which may be set forth elsewhere in this Ordinance, such as, but not limited to, those purposes at the beginning of the various Articles."*

The proposal is consistent with the general purposes of the Ordinance as set forth under §1.2, which includes, but is not limited to promote the health, safety, and welfare of the inhabitants of the City of

Somerville; to protect health; to secure safety from fire, panic and other dangers; to conserve the value of land and buildings; to adequately protect the natural environment; to encourage the most appropriate use of land throughout the City; and to preserve and increase the amenities of the municipality.

The proposal is consistent with the purpose of the RC district, which is, “to establish and preserve a district for multi-family residential and other compatible uses which are of particular use and convenience to the residents of the district.”

4. Site and Area Compatibility: *The Applicant has to ensure that the project "(i)s designed in a manner that is compatible with the characteristics of the built and unbuilt surrounding area, including land uses."*

Surrounding Neighborhood: Lake Street is just south of Somerville Avenue in Union Square. Lake Street has mostly single and two-family structures with an industrial warehouse at the west end of the street.

Impacts of Proposal (Design and Compatibility): The proposed alterations to the rear of the structure are part of an overhaul of the entire property that will enhance the aesthetics of the site. The renovation will include new siding, windows, and upgraded landscaping/site amenities. Overall, the proposed alterations will be compatible with the surrounding area.

5. Housing Impact: Will not create adverse impacts on the stock of existing affordable housing.

6. SomerVision Plan: Complies with the applicable goals, policies and actions of the SomerVision plan, including the following, as appropriate: Preserve and enhance the character of Somerville’s neighborhoods.
