

Psychological First Aid/Post Traumatic Stress Management Training

The City of Somerville Department of Health and Human Services is pleased to offer this training with Riverside Trauma Center, free of charge to members of the Somerville Community.

The goal of this 2-day training is to prepare participants to deliver basic behavioral health disaster response skills following large-scale disasters or critical incidents, such as homicides, suicides, accidental deaths, and similarly distressing events.

When: June 4th and 11th 2021 9am to 4:30pm

Participants must attend both days

This training will take place virtually. Participants can register at:
