WARD 5 FALL 2019 RESISTAT

Mayor Joseph A. Curtatone City Councilor Mark Niedergang

Agenda

- Broadway Busway Update
 - Brad Rawson, Director of Mobility
- Somerville Police Department
 - Chief David Fallon
- Thinking Outside the Big Box
 - Mayor Joseph A. Curtatone
- Quick Updates
 - Taylor Ko
- Somerville Fire Department
 - Chief Charles Breen
- Recent Flooding & Medford St.
 - Brian C. Postlewaite, PE, Assistant Director of Engineering

Broadway Busway Update

Brad Rawson, Director of Mobility

The Boston Globe

NOVEMBER 10, 2017

STARTS & STOPS

T's declining ridership: Why and where

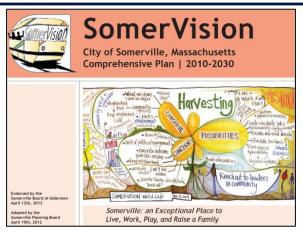

JOHN BLANDING/GLOBE STAFF

By Adam Vaccaro | GLOBE STAFF NOVEMBER 10, 2017

Local, regional, and state plans are calling for expansion of dedicated bus lanes

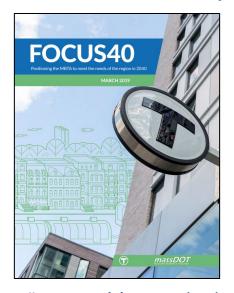

"Convert City streets to dedicated bus lanes"

"Provide for bus lanes on City streets"

"Complete the buildout of the bus priority network as rapidly as possible"

<u>"Expand bus priority</u> to additional bus corridors"

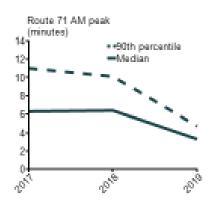

MBTA has published performance data for new bus lanes

Phase 1 Continuous Change Phase 2 Analysis Phase 3 Proposed Near-term Changes Phase 4 Multi-year Investment Strategy Phase 5 Future Network Redesign On Street Infrastructure

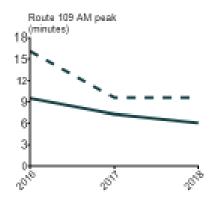

3 examples of bus priority infrastructure and impacts on customers

Mt. Auburn (Cambridge) Routes 71 & 73

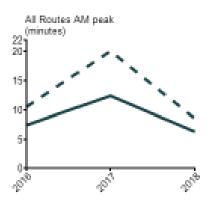

- Up to 5 minutes saved per trip versus 2017
- 50% reduction in variability versus 2017

Broadway (Everett)

- Up to 7 minutes saved per trip versus 2016
- 40% reduction in variability versus 2017

Washington St. (Boston) Routes 30, 34, 34E, 35, 36, 37, 40, 50, & 51

- Up to 2-3 minutes saved per trip versus 2016
- 10% reduction in variability versus 2016

Bus priority reduces travel times and makes trips more reliable

Note: 2017 spike in travel times in Rosindale at least partially driven by construction; Mt. Aubum data from weekdays in April – May; Broadway data from Sept. – Oct, Illt. Aubum implemented. Oct. 2018, Broadway in Nov. 2017, and Rosindale in Illay 2018.

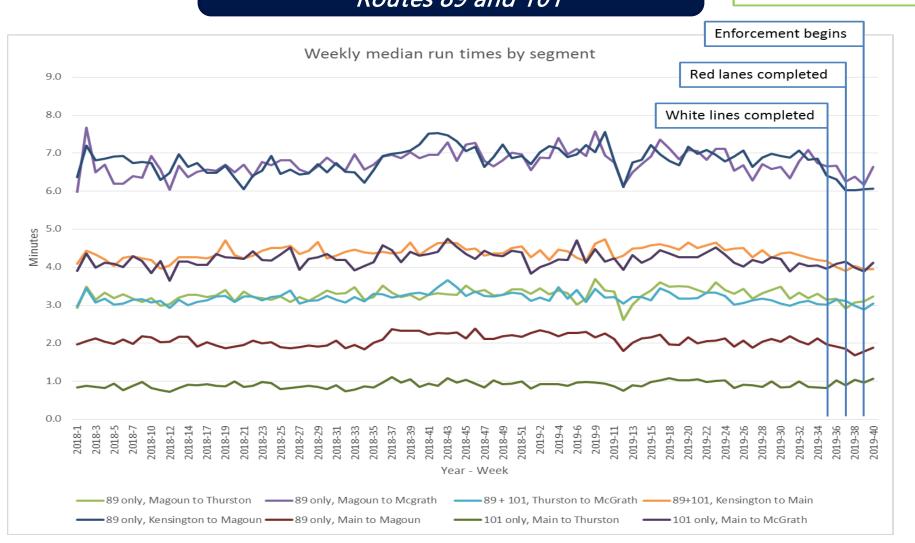

Bource: HASTUS

Draft for Discussion and Policy Purposes Only

Winter Hill project is not yet complete, but data monitoring has begun

Broadway (Somerville) *Routes 89 and 101*

SOMERVILLE POLICE DEPARTMENT

Chief David Fallon

Ward 5 Crime

Index Crime Trends

Citywide:

 Index crime decreased 2% over one year and 3% over two.

Ward 5:

- Index crime decreased 1% over one year and 13% over two.
 However, bike thefts have increased sharply over the past year, both citywide and in Ward 5.
- Violent crime decreased 22% over one year and remained stable over two.

Citywide and Ward 5 Crime

Bike Theft

Residents:

- Always lock your bike to a fixed object (even if stored inside a garage or shed)
- Be wary of cable locks which are easily cut with wire cutters
- Never lock your bike to wooden posts that can be broken
- Take <u>indoors overnight</u>, if possible. If not, store somewhere with <u>low street</u> <u>visibility</u> (back yard, back porch, etc.) – but always locked.
- Keep a file of bike <u>serial numbers</u> and photos

SPD Efforts:

- Sergeant assigned to oversee bike theft investigations
- Prioritize suspect identification and bike recovery
- Analyze temporal and geographical patterns of incidents
- Neighborhood Police Officers and Area Cars deployed based on temporal patterns and hot spots
- Increase residents' awareness of crime prevention methods

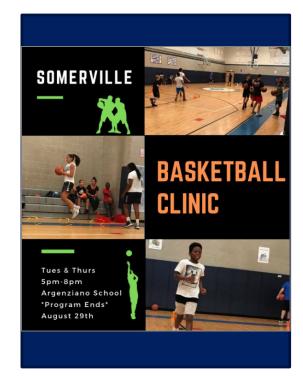

Youth Engagement Successes

Basketball Clinic for Somerville Youth

SPD Officers held a basketball clinic for youth ages
 10 – 19 yo, every Tues. & Thurs., July 16 – August 29th

Junior Police Academy

- Held two one-week Academies with a total of 61 graduates, ages 11 – 14 yo
- Activities included: District Attorney Marian Ryan presentation, National Guard fitness challenge, CPR training, Cataldo first aid presentation, K-9 presentations, team building, daily physical fitness

Accreditation

The Somerville Police Department was awarded Accreditation by the Massachusetts Police Accreditation Commission (MPAC) on June 4, 2019.

Accreditation is a self-initiated evaluation process by which police departments strive to meet and maintain standards that have been established for the profession, by the profession. These carefully selected standards reflect critical areas of police management, operations, and technical support activities. They cover areas such as policy development, emergency response planning, training, communications, property and evidence handling, use of force, vehicular pursuit, prisoner transportation and holding facilities. The program not only sets standards for the law enforcement profession, but also for the delivery of police services to citizens of the commonwealth.

Mayor Joseph A. Curtatone

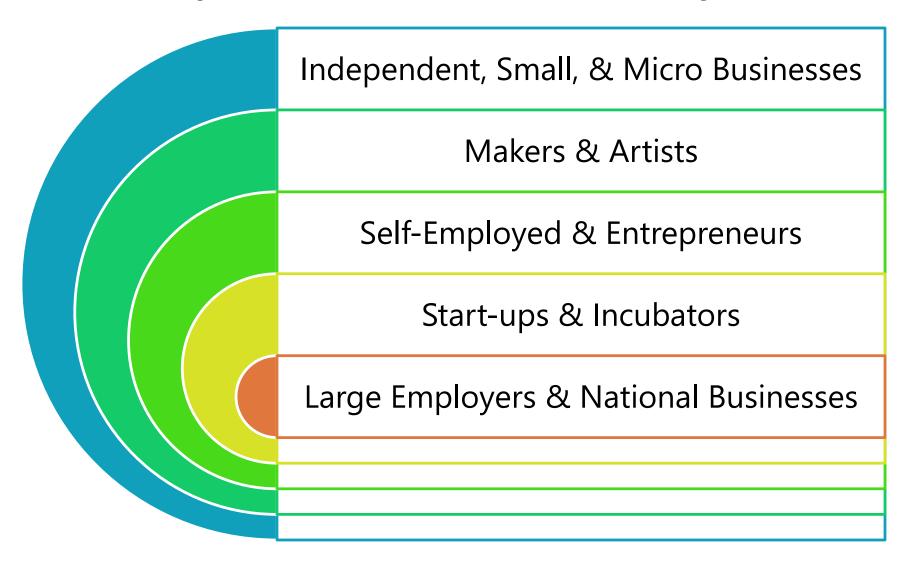

Thinking Outside the Big Box

Helping our Alternative Economies and Small Business Community

Adapt & Thrive in a Changing World

Mayor Joseph A. Curtatone

Diversity of Our Local Economy

Our Economic Diversity Defines Us, Supports Our Community Goals, and **Builds Our** Unique **Quality of Life**

Walkability

Sustainability

Diversity

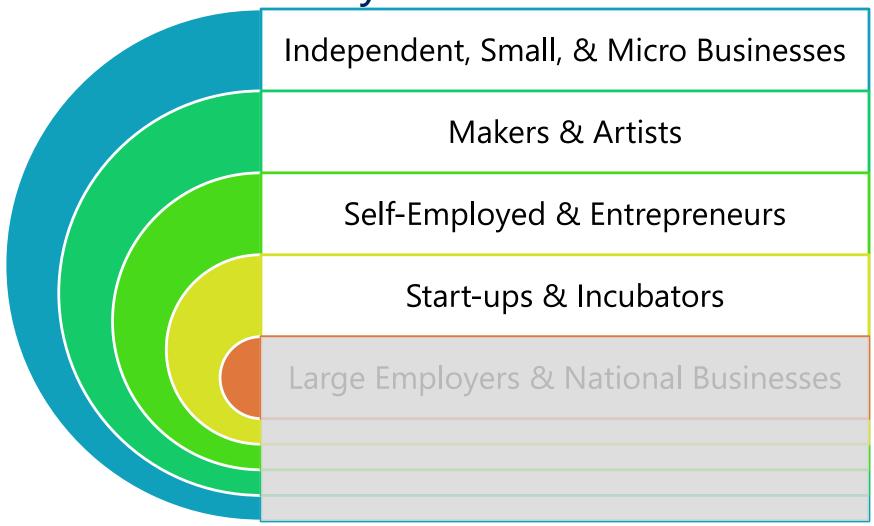

Community

Jobs

Focusing on our Alternative & Small Business Economy

How does this impact you?

A few examples...

A Key Part of our Local Ecosystem:

Sustainability

 1/3 of Somerville's green house gas emissions come from transportation, with nearly 60% of that coming from passenger vehicles.

If we want to reduce GHG emissions from transportation we need to:

A Key Part of our Local Ecosystem:

Affordability

 Residential taxes, which are based on a house's value and the tax rate, are a driver of affordability.

If we want to keep residential tax rates low we need to:

Shift more of taxes from of residential to commercial

Commercial taxes, meals taxes, and sales taxes help offset residential taxes

Help small businesses thrive and welcome new ones so those funds increase

A Key Part of our Local Ecosystem: **Quality of Life**

• Our Happiness Survey showed correlations between residents' overall happiness and factors like availability of cultural events, the physical setting of their neighborhood, and happiness with their neighborhood.

If we want residents to be happy living in Somerville we need to:

Have vibrant neighborhoods and squares

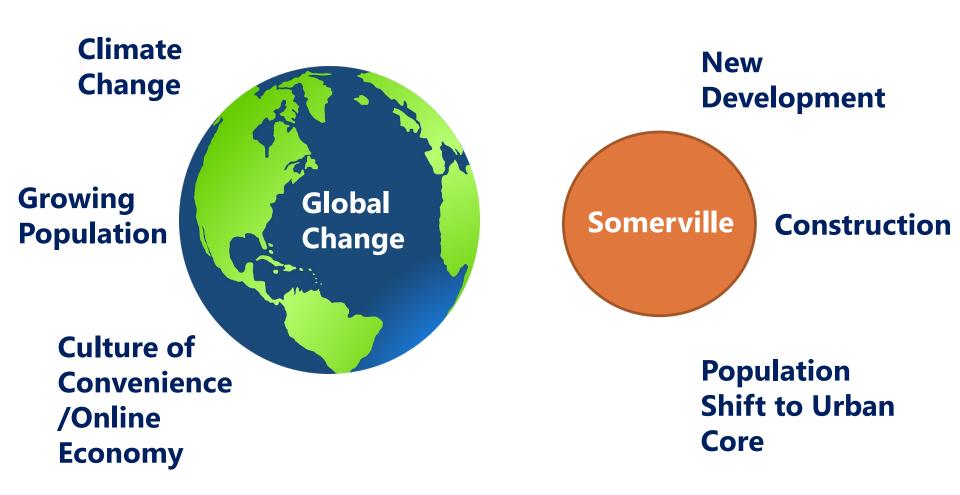

Mobility improvements, density, and cultural events bring people in

Local businesses provide services, amenities, and sense of community

But We Are All Experiencing Local & Global Change

How Do We Adapt and Approach these Challenges with Flexibility?

At the Same Time, Our Local, Independent Businesses Face Many Challenges:

Big Box & Chains

Staffing

Access to Capital Info & Training

Red Tape

Equity

Construction

Real Estate

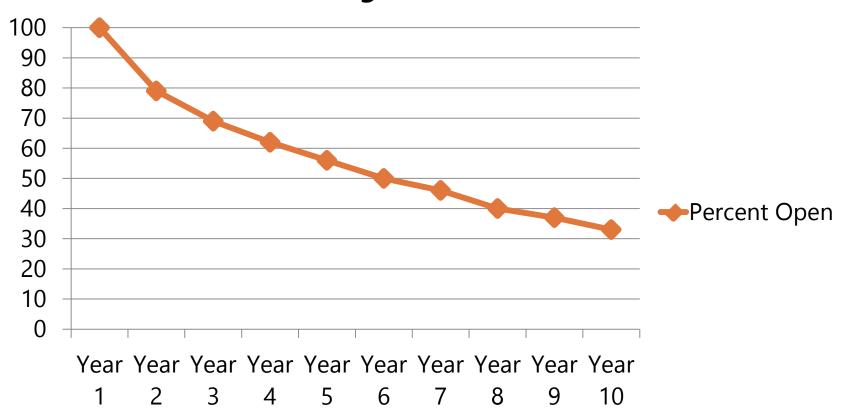

Survival Now

Resiliency & Adaptability

Stronger Future The old model of economic development wasn't addressing current challenges that small, micro, alternative, and start-up businesses face, so the City began thinking creatively about how to address modern economic development needs.

Half of Small Businesses Fail Within 5 Years, Two-Thirds Fail Within 10

Percent of Small Businesses Remaining Open During First 10 Years

Alternative Economic Development in Action

Connecting Customers and Small, Local Businesses

Supporting our creative economy

Economic Development through the Arts

For every \$1 w

we spend, we see \$4.40 in economic impacts

Indirect Impact

- Attendees patronizing nearby local businesses
- Placemaking brings people back to our businesses

Direct Impact

- Money artists and vendors earn at events
- Money spent on supplies and promotion of events

Economic Development through the Arts

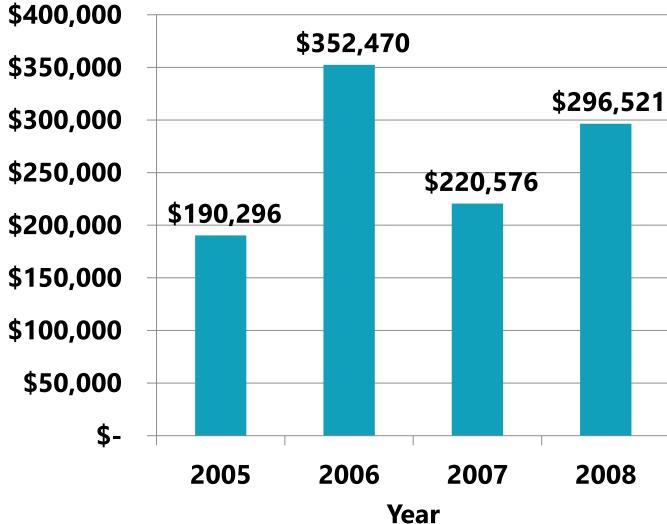

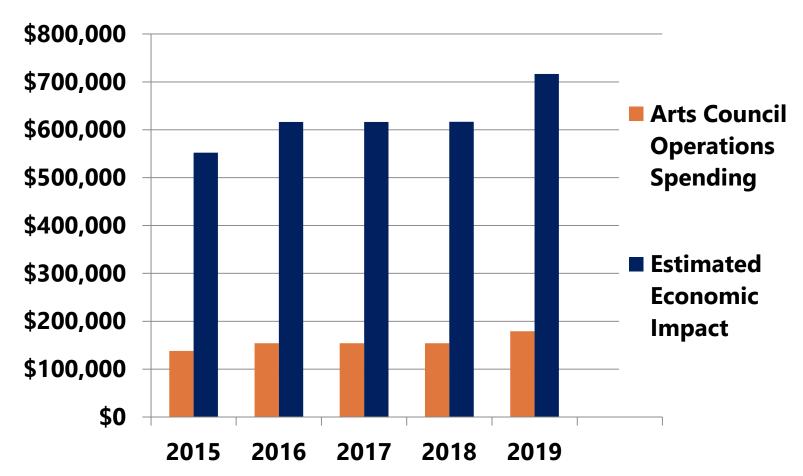

Economic Impacts of ArtsUnion

Arts Council Estimated Economic Impact: Approximately \$3M Over 5 Years

Conservatively estimates 4, not 4.4 times operational spending for economic impact and excludes grant funds expended, which would additional impacts.

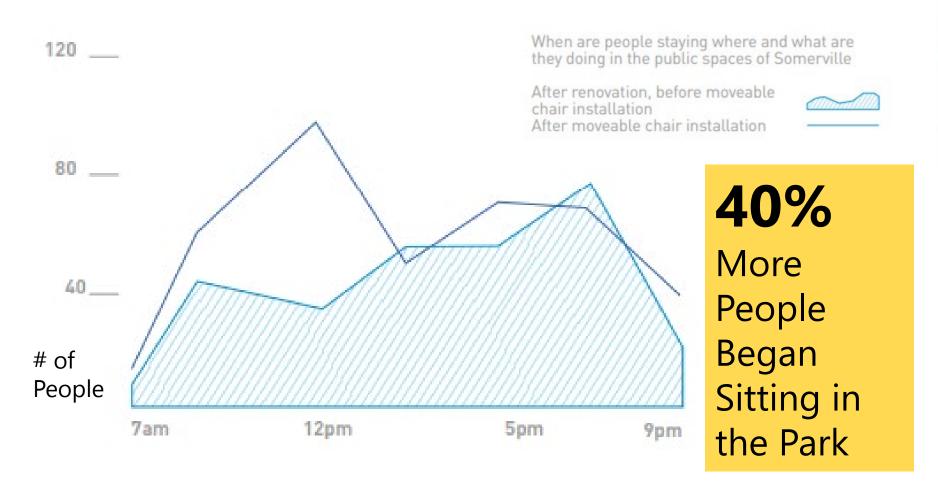

Placemaking

People stick around in places they feel comfortable.

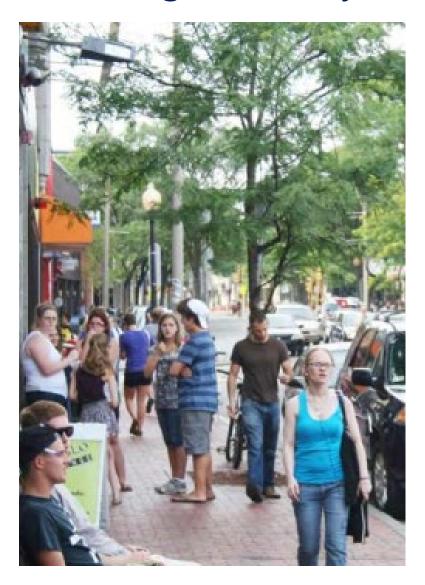

- Activity
- Outdoor furniture
- Parks and other open spaces
- Special events

Placemaking – Furniture & water feature in Kenney Park

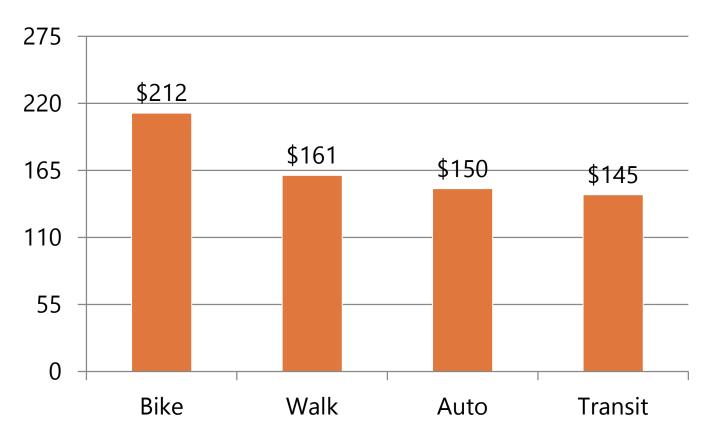

Investing in Mobility is Investment in Local Business

Studies have found that when communities improve pedestrian and cycling infrastructure they gain net new businesses and private investment increases.

Spending per Month by Travel Mode

Portland, OR, Study: Monthly spending on convenience stores, bars, restaurants

"Consumer Behavior and Travel Choices: A Focus on Cyclists and Pedestrians" Clifton et.al, Department of Civil and Environmental Engineering Portland State University 92nd Annual Meeting of the Transportation Research Board, January 2013, Washington, D.C.

Economic Development in Action

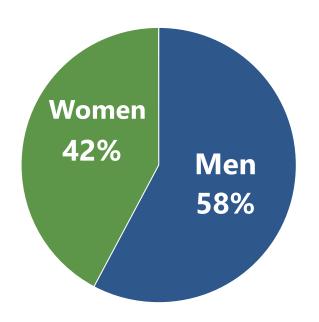

Lowering the Barriers to Entry

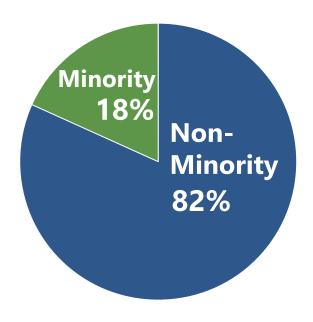

Greater Equity Needed in Somerville Business Ownership

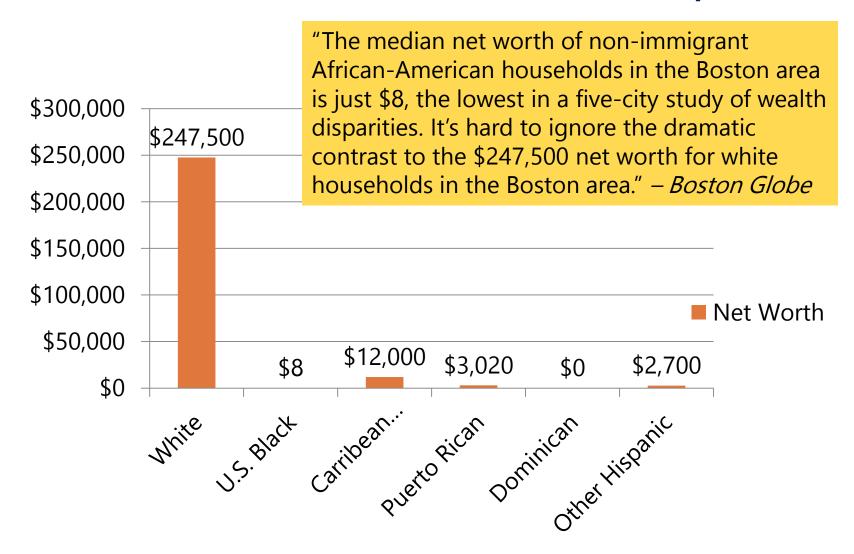

Men-Owned vs. Women-Owned

Minority-Owned vs. Non-Minority-Owned

Boston Data on Racial Wealth Gap

Opening Doors & Minds

Supporting **Diversity**

- Immigrants are twice as likely to open a business, often in the food industry
- More than 40% of food business owners in Union Square are immigrants
- Nibble: Representing 13 countries including Venezuela, India, Mexico, Colombia, Somalia, Panama, Ethiopia

Supporting **Equity**

- Help with permitting and certifications
- Multilingual services
- Lower start-up cost and overhead
- ADA Commercial Kitchen

Two new restaurants:

Las Carolinas and Nibble Kitchen

Regulations for Today's Reality

New Public Liquor Licenses

- Existing businesses can increase the profit by ~20%
- Lowering the cost to enter the restaurant industry
- \$3,500-\$5,000 per license (with annual fees of \$2,000-\$3,500) vs. upwards of \$100k in Somerville and more than \$400k in Boston

Food Trucks

- Flexibility
- Lower upfront costs
- Avoid challenge of real estate

Economic Development in Action

Adapting to New Ways of Working

Alternative Work Spaces & Room to Grow

In 2016 there were 5.6
 million small and
 micro businesses in the
 U.S.

- Start ups and small businesses that need office or production space may not be able to afford or need large spaces
- We need places where businesses can begin and grow

GREENTOWNLABS

Incubator space for cleantech companies

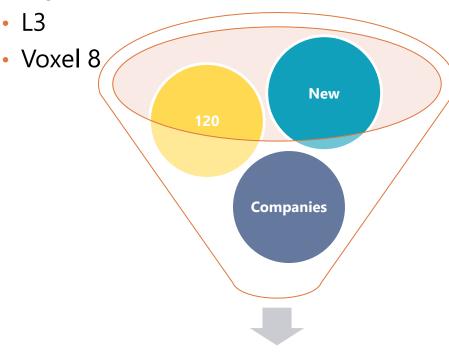

- Home to more than 120 companies
- Some have expanded and moved into their own larger spaces
- Created 900 jobs

City support

- Helped find appropriate real estate
- Supported expansion with I-Fund loan
- Opportunities for companies to partner with Somerville

Launching new larger companies within Somerville:

RightHand Robotics

900 New Jobs

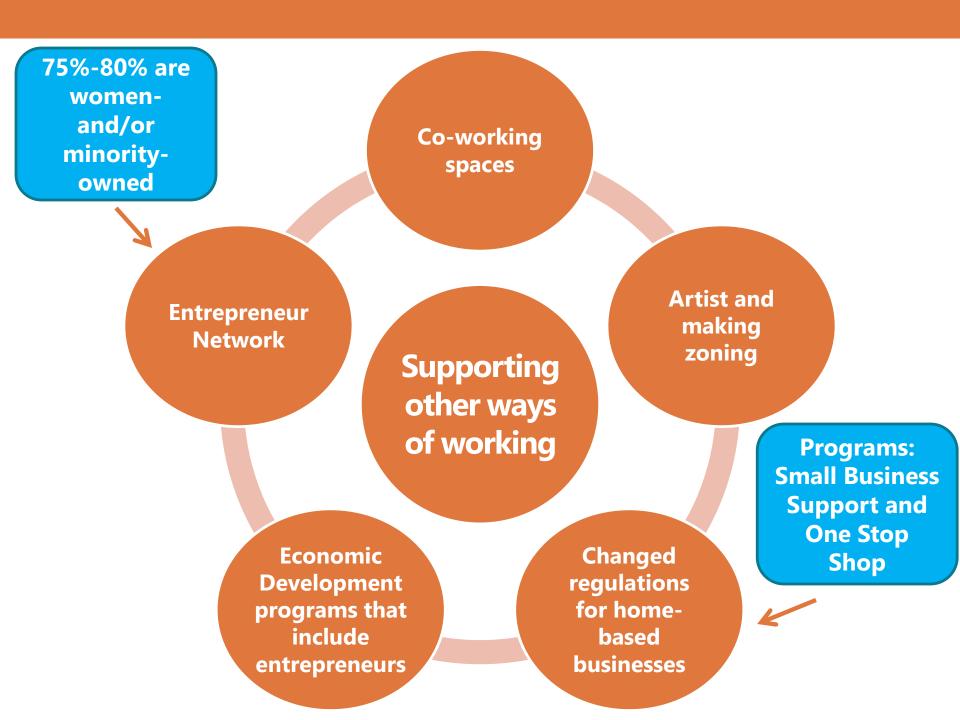

Artisan's Asylum: One of the World's Largest Maker Spaces

Artisan's Asylum: City Support

- City facilitated their access to a Somerville location at their founding.
- Ongoing City partnerships both with Artisan's and with their members
- Donated SHS machining equipment after State grant provided schools with new equipment
- Zoning Overhaul would establish their current location as a permanent fabrication district.

Economic Development in Action

Investing in Ourselves

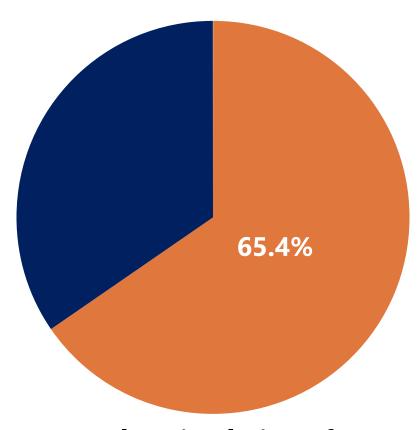

Return on Investment of Spending Locally

Chain Restaurants

34.5%

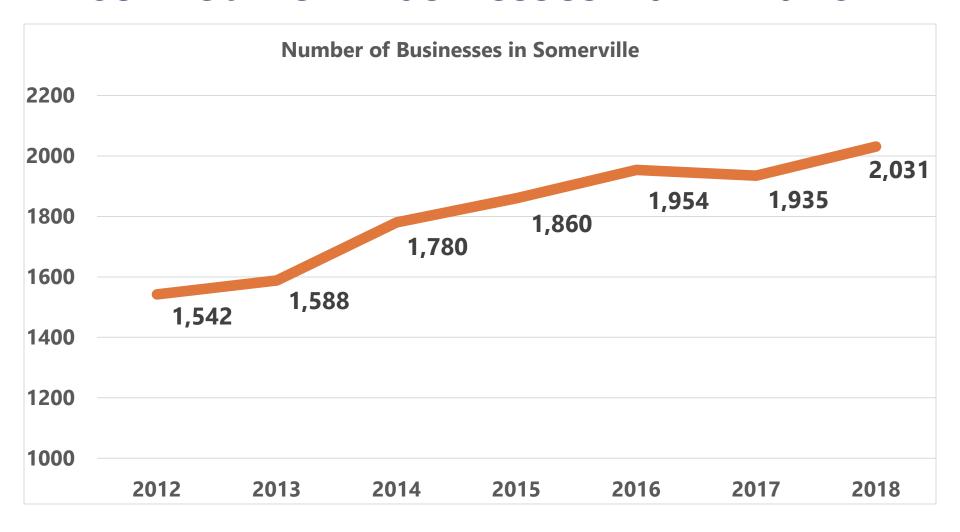

Local Recirculation of Revenue: 34.5%

Independents

Local Recirculation of Revenue: 65.4%

489 Net New Businesses 2012-2018

Our Daily Choices Impact Our Future as a Community

If we enjoy the perks of having these local businesses here, it is up to us to support them.

Invest in Local Businesses, Invest in Our Somerville

Lead Service Line Replacement Program

- Check to see if your residence has a water service line made of lead?
 → somervillema.gov/LeadServices
- Have your property's lead or noncopper water service line replaced, free of charge
- Applications due by December 2019 to be considered for replacement starting Spring 2020

More information on the website above or call the Engineering Dept. at

617-625-6600 Ext. 5400

Rethinking Reusable/Recyclable Materials

Regional and global changes mean we must be very careful about contamination

Do Recycle:

- Clean metal, glass, rigid plastic, and paper containers
- Clean paper and cardboard

Enter the item name in the Somerville Waste Wizard below to find out.

Not sure how to dispose of something?

Don't Recycle:

- Plastic bags
- Plastic wrap or film
- Anything with food on it

Somervillema.gov/Wizard

Kennedy Schoolyard

Green Line Extension Updates

Project is on schedule to be open by end of 2021

Bridge Closure Updates:

- Broadway bridge on track to reopen March 2020
- Washington St. bridge now expected throughout the winter but will reopen April 2020 instead of Fall 2020
- Medford St. bridge Will reopen late spring 2020
- School St. bridge expected to close early spring 2020
- Next public meeting: November 2019

We Remain Vigilant Regarding Traffic Management

- An interdepartmental team to coordinate with state partners
 - Fire, Police, Mobility, Engineering, Traffic and Parking, Communications and other staff

Three pronged approach

- 1. Advance planning
- 2. Daily monitoring
- 3. Rapid response
- Reboot Your Commute campaign with the GLX team
- 96 neighboring cities and town, 84 media outlets, 29 medical facilities, 26 colleges, and large employers in the area

If you have concerns regarding traffic or detours, please continue to report them to **311** or to **construction@somervillema.gov**

Recent Flooding & Medford St.

Brian C. Postlewaite, PE
Assistant Director of Engineering
Infrastructure & Asset Management

Examples: Lake St. & Albion St.

June 29, 2019

September 18, 2018

Flooding is a Citywide Concern for:

Public Safety and Health

Property Damage

Combined Sewer Overflows (CSOs)

Weather Events Linked to Flooding

Precipitation-Based Flooding

Rainfall intensity exceeds 0.3 inches within a 15 minute period

Coastal Flooding

Sustained rains

Long duration storms

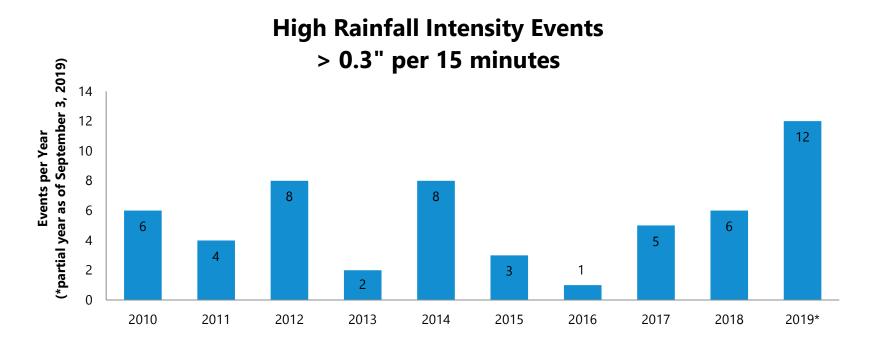

Snow melts

Ice and snow can block catch basins

We've Seen More Events of High Rainfall Intensity in 2019

Climate change is expected to increase rainfall intensity over time.

Data source: United States Geological Survey, collected at Fresh Pond in Cambridge, MA

City Response

- During Flood Events
 - Sewer dispatches crew(s) to respond to constituent reports of active flooding
 - Crew assesses basin and system condition
 - Crew disperses flood where possible
- After Flood Events
 - Engineering receives email reports to inform long-term system improvement plans

Problems are Deeper than Emergency Response

Pipe Capacity and Development Density

Limited space for the rainfall to travel

Geography

Some areas of the City are more prone to flooding due to elevation

Pipe Condition

Pipe breaks and debris inhibit flow

Climate Change

Increased precipitation, storm surge intensity, and sea level rise will affect the Northeast

Catch Basin Condition

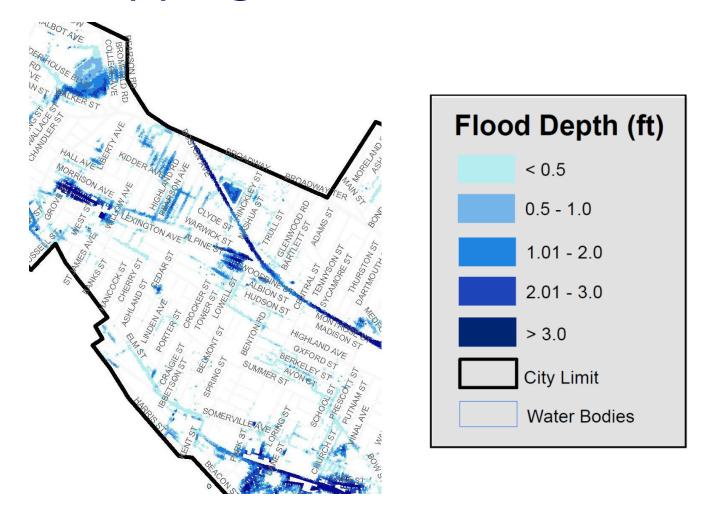

Without regular cleaning and maintenance, flow can't reach pipes

Path to Long-Term Fixes

Starting point 2018		Study/prioritize 2019		Design/build 2019 +	
Project	CIP Cost Estimate (FY19-FY28)	Project	CIP Cost Estimate (FY19-FY28)	Project	CIP Cost Estimate (FY19-FY28)
	\$39.07M	Sewer System Evaluation Study and Asset Management Plan	\$10.35M Sewer Enterprise	Poplar St. Stormwater Pump Station	\$21.37M Sewer Enterprise (US Q DIF)
Somerville Ave. Utility & Enterprise Streetscape (USQ DIF)	•	Hydraulic Modeling and	\$1M Sewer Enterprise (Annual OM)	Spring Hill Sewer Separation	\$14.18M Sewer Enterprise (US Q DIF)
		System Improvement Analysis		Sewer Separation Projects (3)	\$50.82M Sewer Enterprise, MWRA, I/I

Please note that dollar amounts are for FY19 CIP spending forward. These do not include prior year spending.

Flood Mapping - Ward 5

(100y, 2070, REC, SLR100y2070)

In the meantime...

Flood risk communication
