

Access

- Comprehensive review and report on progress towards ADA Transition Plan
- Review of school access (they have their own oversight of accommodations, but many parents complain of students not being well served) & better documentation of who handles it
- Formalize when city runs plans by commissions; how soon before commentary is received, how it gets to commission members, how feedback is returned
- Formalize commissions being part of the process to refer potential new members to the appointments committee

Education of city staff/ changes to city policies

- 311 ADA category/reporting
- outdoor dining
- meeting materials available ahead of time, posted on city website
- zoning changes
 - Remove 2ft height requirement on new construction
 - Consider adding a % requirement for universal design
 - Add in employee work space accessibility for new/gut reno commercial construction
- design guidelines for construction
 - ISD/Planning; who does plan review? Who does inspection sign offs? Currently lots of things are being approved that are not ADA compliant (add positions)

Increasing capacity of SCPD

- document library
- member recruitment
- OML clarity
- subcommittees
 - separate meeting time for variance requests and design reviews?

Individual streetscape design reviews/ variance requests

- Medford St
- Crosswalk signal sounds, CW signage. rights turns and CW requests timing
- Sidewalk prioritization & funding
- Accessible parking master plan

Inclusionary housing

- Require overlap of affordability and accessibility

Public outreach

- Elderly/senior center/senior housing/ ADA units/parent groups and school outreach meetings wrt public access and safety
- Guest Speaker suggestions and citizen involvement

Further direct projects

- parking fine money
- hydrant update
- adopt your neighborhood program
- MOD CAM
