Recommendation: Conditional approval if the ZBA deems that sufficient information has been provided for evaluation

PLANNING STAFF REPORT

Site: 16 Whipple Street

Applicant Name: David Feeney
Applicant Address: 16 Whipple St., Apt 2,
Somerville MA 02144
Owner Name: same as above
Owner Address: same as above
City Councilor: Lance Davis

Legal Notice: Applicant and Owner, David Feeney, seeks a Special Permit under §4.4.1 to construct a dormer within the left side yard setback. RC zone. Ward 6.

Dates of Public Hearing: Zoning Board of Appeals – April 3, 2019

I. PROJECT DESCRIPTION

1. **Subject Property:** The locus presents a two-family, 2 ½-story residential structure located in the RC zone. The structure is sited on a 1,585 square-foot lot. The property is non-conforming in terms of front yard setback, lot size, lot area per dwelling unit, left side yard setback, right side yard setback, street frontage, and rear yard setback.

2. Proposal: The non-conformity impacted by the proposal is the left side yard setback which is 2.1 feet. The Applicant proposes constructing a single, gable-roofed dormer on the left elevation this same distance from the property line.

3. Green Building Practices: None listed on application.

II. FINDINGS FOR SPECIAL PERMIT (SZO §4.4.1):

In order to grant a special permit, the SPGA must make certain findings and determinations as outlined in §5.1.4 of the SZO. This section of the report goes through §5.1.4 in detail.

1. Information Supplied:

The Staff finds that the information provided by the Applicant is challenging to decipher, however, Planning Staff cannot compel an Applicant to hire an architect to provide drawings.

2. Compliance with Standards: *The Applicant must comply "with such criteria or standards as may be set forth in this Ordinance which refer to the granting of the requested special permit."*

The proposal is to construct a single, gabled dormer within the left side yard setback. This dormer will reside 2.1 feet from the left property line. The required left side yard setback is eight (8.0) feet. This alteration to a non-conforming structure requires the Applicant to obtain special permits under §4.4.1 of the Somerville Zoning Ordinance (SZO).

Section 4.4.1 states that "[l]awfully existing one-and two-family dwellings which are only used as residences, which are nonconforming with respect to dimensional requirements, may be enlarged, extended, renovated or altered by special permit granted by the SPGA in accordance with the procedures of Article 5."

In considering a special permit under §4.4 or 4.5 of the SZO, Staff finds that, in general, the construction of a single dormer is a reasonable request for an Applicant to make in order to gain additional head height. In general, this alteration would not be substantially more detrimental to the neighborhood than the existing structure. This property is severely non-conforming in nearly all respects as noted at the outset of this report. Staff finds that granting this small measure of relief to be reasonable. However, the ZBA must determine if enough information has been provided by the Applicant in order to determine if conditional approval is warranted or if the plans need to be updated to better show the dimensionals of the project prior to the Board making a determination.

3. Consistency with Purposes: *The Applicant has to ensure that the project "is consistent with (1) the general purposes of this Ordinance as set forth in Article 1, and (2) the purposes, provisions, and specific objectives applicable to the requested special permit which may be set forth elsewhere in this Ordinance, such as, but not limited to, those purposes at the beginning of the various Articles."*

The proposal is consistent with the general purposes of the Ordinance as set forth under §1.2, which includes, but is not limited to promote the health, safety, and welfare of the inhabitants of the City of Somerville; to protect health; to secure safety from fire, panic and other dangers; to provide adequate light and air; to encourage the most appropriate use of land throughout the City; and to preserve and increase the amenities of the municipality.

The proposal is consistent with the purpose of the RC district, which is, “[t]o establish and preserve a district for multi-family residential and other compatible uses which are of particular use and convenience to the residents of the district.”

4. Site and Area Compatibility: *The Applicant has to ensure that the project "(i)s designed in a manner that is compatible with the characteristics of the built and unbuilt surrounding area, including land uses."*

- *Surrounding Neighborhood:* Whipple Street is a one-way street with residential structures on one side. The abutting property to the left is a multi-unit that underwent recent renovations. The remaining residential structures on the street are gable-fronted two- and three-family buildings. Directly across the street from 16 Whipple is a large property with a substation/warehouse owned by Boston Edison/NSTAR Electric & Gas Company.
- *Impacts of Proposal (Design and Compatibility):* The impacts of the proposal on the streetscape will be minimal providing that the dormer is well-executed.

5. **Housing Impact:** Will have no impact on the existing housing stock (market rate) or affordable housing stock.

6. **SomerVision Plan:** The proposal has no impact on SomerVision positively or negatively; this is a short set of steps being constructed to exit from an existing deck.

III. RECOMMENDATION

Special Permit under §4.4.1

Based on the materials submitted by the Applicant, the above findings and subject to the following conditions, the Planning Staff recommends **CONDITIONAL APPROVAL** of the requested **SPECIAL PERMIT**.

The recommendation is based upon a technical analysis by Planning Staff of the application material based upon the required findings of the Somerville Zoning Ordinance, and is based only upon information submitted prior to the public hearing. This report may be revised or updated with new recommendations, findings and/or conditions based upon additional information provided to the Planning Staff during the public hearing process.
