For projects that have received approval but have not yet received a certificate of occupancy or final sign-off under the approval, "revisions to permits" may be sought. If you believe the changes are extremely minor, you may apply for a (de minimis) finding by the Planning Division; if the revision is de minimis, a public hearing is not required and Staff will approve or deny the changes according to SZO §5.3.8. For changes that are not de minimis, notice and a public hearing with the board that granted the permit are required.

In order to modify the use or development of a project that has already received a certificate of occupancy or a final sign-off, a new permit would be required under the applicable code section. This does not jeopardize the original permit.
