

Fair Housing Laws prohibit discrimination because of national origin, race, religion, age (over 40), disability, receipt of government assistance,* military status,* gender identity/expression,* sexual orientation,* genetic information,* marital status,* or families with children when renting, buying or securing financing for a home.

The City of Somerville would like your input in analyzing challenges to fair housing choice and addressing barriers in our community. We will be seeking your feedback throughout our Welcoming and Inclusive Neighborhoods of Somerville (WINS) initiative by tabling at community events, holding meetings and sending out surveys.
