

GOT PREVENTION

November 2016

October is National Bullying Prevention Month

In April 2017 the Student Health Survey will be administered to all the Middle School students in Somerville from grades 6-8. We need at least 20 volunteers to administer the survey. Volunteering will be a great opportunity to meet new people and see the great schools of Somerville.

Everyone is welcome to volunteer. The more the merrier. It will take about 2 hours out of the morning to administer since we are doing all the grammar schools.

If you would like to assist the City of Somerville in administration of the Student Health Survey in April 2017 please contact

Cory Mashburn

TOBACCO CONTROL ACT

To protect the public and create a healthier future for all Americans, the Family Smoking Prevention and Tobacco Control Act (Tobacco Control Act), signed into law on June 22, 2009, gives FDA authority to regulate the manufacture, distribution, and marketing of tobacco products.

The Tobacco Control Act:

Restricts Tobacco Marketing and Sales to Youth

Requires Smokeless Tobacco Product Warning Labels

Ensures “Modified Risk” Claims are Supported by Scientific Evidence

Requires Disclosure of Ingredients in Tobacco Products

Preserves State, Local, and Tribal Authority

Restricts Tobacco Marketing and Sales to Youth

The Tobacco Control Act puts in place specific restrictions on marketing tobacco products to children and gives FDA authority to take further action in the future to protect public health. These provisions ban:

sales to minors

vending machine sales*

the sale of packages of fewer than 20 cigarettes

tobacco-brand sponsorships of sports and entertainment events or other social or cultural events

free giveaways of sample cigarettes and brand-name non-tobacco promotional items

Requires Smokeless Tobacco Product Warning Labels

The Tobacco Control Act requires that smokeless tobacco packages and advertisements have larger and more visible warnings. Smokeless tobacco includes tobacco products such as moist snuff, chewing tobacco, and snus. Every smokeless tobacco package and advertisement will include one of the following warning label statements:

WARNING: This product can cause mouth cancer.

WARNING: This product can cause gum disease and tooth loss.

WARNING: This product is not a safe alternative to cigarettes.

WARNING: Smokeless tobacco is addictive.

For smokeless tobacco packaging, the warning label statement must be located on the two principal sides of the package and cover at least 30% of each side.

For advertisements, the warning label statements must cover at least 20% of the area of the ad.

SOMERVILLE POSITIVE FORCES UPDATE

In October, SPFJr. and SPF100 Alumni Youth Leaders worked with Lovelee Heller-Bottari and Jamie Erdheim to work on hiring new leaders for their programs. In addition SPF100 continued their collaboration with the *MA Gambling Prevention Commission* and worked to support community education for marijuana prevention.

Anmol, Nephtalie, Lily, and Jasmine worked with SCAP staff to review 35 SPF100 and 19 SPFJr. program applications. Next, they planned and set-up interviews all while developing professional development and interviewing skills. The opportunity to sit on the other side of the table during the interview and gain a unique insight will serve them well in the future. Ultimately, they conducted 1 group interview with 28 SPFJr candidates and 16 individual interviews with SPF100 candidates. They really did an amazing job sharing program information and identify new leaders. In the end, they hired 24 new SPF youth and we could not be more proud of their efforts.

Congratulations to our 2016-2017 SPFJr. Team:

Aeryn Player, Ben Buchheit, Deha Ahmed, Ezra Brody, Isabella Milanowski, Jaderson Flores, Jasmine Fridman, Lilian Switkes, Tatiana Pineda, Lucca Alcarazvalens, and Theresa Romano

Also this month, SPFJr. held their program orientation with 10 new and 1 alumni SPFJr. youth leaders. SPF leaders learned about prevention projects and program expectations. They met with library staff, Ron Castile, to hear about library resources and received a tour of the Teen Room space. Finally, they engaged in interactives to form caring relationship between their peers and adults, and worked on team building skills.

SPF100 alumni leaders met with three *MA Gambling Prevention Commission* staff to finalize their substance abuse and gambling prevention campaign, *Odd Odds*. This tabling campaign engaged about 100 SHS students during lunches using two interactive games to teach students about the odds of winning in gambling games. They also use their photo voice exhibit to educate peers around ATOD/compulsive gambling risk and protective factors and distributed 20 financial planning resources for graduating students. Students really enjoyed the campaign, one students exclaimed, “nobody teaches us this stuff, this is great!”

For help with compulsive gambling call: 1-800-426-1234 or visit:

<http://www.masscompulsivegambling.org/>

Finally, SPF Alumni leaders assisted with *SCAP Marijuana Prevention Team* efforts by providing input on the development of new marijuana harms poster and helping to distribute them at over 40 community locations!

Check out the poster and our other marijuana prevention posts on our SCAP Facebook page at <https://www.facebook.com/SomervilleCares/>

Tips for a child's after school activities

Here are 10 tips for making your child's after-school activities a fun and rewarding part of childhood—and for teaching your child the skill of time management.

- 1. Choose the right activities.** There is no need for everyone to run ragged getting to volleyball practice if your child no longer enjoys it. “We talk about mindful choices,” Dalglish says. “You want your child to get value out of any activity, whether it’s a great social outlet or a chance to run off a lot of energy.”
- 2. Consider timing.** If you’re lucky enough to have choices in times, choose wisely. “Think about how well your child does with transitions,” Dalglish says. “For some kids, coming home triggers wind-down time, [so] parents may want to go to the library after school to do homework instead of stopping by the house.”
- 3. Honor the family meeting.** There is a central principle when it comes to family time management: Everyone must get together once a week, with calendars in hand, to plan out the next week. Figure out how each kid will get to and from each activity, and make plans for meals and snacks. When doing the planning, try to carve out at least one night when the family can have dinner together. Make your weekly meeting fun by following it with a family movie or game night. Or, suggests Grey, dole out allowance and lunch money at the end of the meeting. “We made our meeting like a board meeting,” she says. “It became something special that the kids enjoyed and looked forward to.”
- 4. Maintain a family calendar.** Each family member needs his or her own week-at-a-glance calendar, and you also need a family calendar. Yes, that’s a lot of calendars, but it will help ensure all activities are well-planned.
- 5. Get the activity bags ready.** Get your kids in the habit of packing their activity bags on Sunday night. Designate a place for them to hang or store their bags. For activities requiring a lot of gear, use a checklist to make sure nothing gets left behind.
- 6. Embrace meal planning.** It’s important to plan simple, consistent meals, especially if you’re a busy family with a lot of activities. For example, kids love theme dinners such as “Taco Tuesday,” and can help with preparation and assembly. Also plan snacks, making sure to have high-protein nibbles available for kids before they embark on a strenuous activity.
- 7. Make it portable.** Keep healthy drinks and snacks in a car cooler. After all, “we’re a portable society,” Dalglish says. In addition to food, keep an “activities bin” for kids to rummage through while hanging out at big brother’s karate practice— but only then. “Those activities are special, and they only get pulled out when kids are waiting,” Dalglish explains.
- 8. Make car time special.** If you spend a lot of time driving to and from activities, make that time count. Try an audiobook, choosing a story everyone in the family can enjoy. Dalglish plays a conversation game with her children. She has a set of cards with prompts such as, “What is the worst meal you ever had in a restaurant?” or “What is your favorite vacation memory?” She passes the deck to her kids has them pick one. “It’s about finding those moments to connect,” she says.
- 9. Have a picnic.** If you have to race from your daughter’s after-school soccer practice to your son’s evening hockey game, pack a cooler and enjoy a picnic supper in the bleachers, at a park, or anywhere else you can find.
- 10. Divide the meal.** If an activity runs right through your child’s usual dinnertime, consider giving him a large, protein-rich snack before the activity and then a light supper afterward. A starving child equals a cranky one.

VOLUNTEER OPPORTUNITIES

Writer

Do you have a literary knack? Help SCAP write articles, interest pieces, or editorials for the SCAP newsletter or local newspapers. Time commitment varies depending on length of writing sample.

Youth In Action Project Participant

Adult volunteers are partnered with youth and law enforcement in efforts to promote zero tolerance enforcement, legislative advocacy and eliminate the current retail and social availability of alcohol for minors via the various YIA programs. Current volunteer opportunities are available with the Compliance Checks, Shoulder Tap Surveys and the Sticker Shock Campaign.

Please go the **Somerville Cares About Prevention** website if you would like to find out about other volunteer opportunities.

www.somervillema.gov/SCAP

SCAP Community Activist

Friendly, outgoing volunteers are needed to reach out to residents, storekeepers, non-profit groups, community groups, etc. to promote the SCAP mission and to encourage involvement. Duties may include distributing informational or upcoming event fliers, and making phone calls to various businesses and residents. Variable hours are available.
